

EMACRIT

Microencapsulated and micronised iron sucrose

Folic Acid

Vitamins C, B6, B12

30 capsules

Ingredients: corn starch; Iron (iron sucrose); Vitamin C (L-ascorbic acid); Gelatin; Anti-caking agents: E471 and magnesium stearate; Vitamin B6 (pyridoxine hydrochloride); Vitamin B12 (cyanocobalamin); Dyes: red iron oxide and titanium dioxide; Folic acid.

Gluten Free.

Pack and content: 2 blisters containing 15 capsules each.

Category: food supplement.

Indications: EMACRIT is an association of iron sucrose, folic acid and vitamins C, B6 and B12. Iron, together with folic acid and vitamins B6 and B12, promotes normal red blood cells formation and help to counteract the tiredness and fatigue. The micronised and microencapsulated iron sucrose form guarantees high digestibility, avoiding at the same time both the metallic aftertaste and classics disorders associated with iron integration. The formulation has been optimized with the addition of Vitamin C, which increases the iron absorption.

EMACRIT is indicated in cases of insufficient dietary intake, increased need or reduced absorption of its components.

Recommended dose: 1 capsule per day.

Warnings: food supplements are not intended as a substitute for a varied and balanced diet and healthy lifestyle. Do not exceed the recommended daily dose. Keep out of reach of children under 3 years.

Storage conditions: store in a cool and dry place.

Produced and packed in the structure of Via Sombreno, 11 - 24011 Almè (BG), Italy on behalf of Pharma Line S.r.l. – Via Antonio Canova, 12 - 20154 Milan, Italy.
